Left fuel tank minimum 50 gallons

Back up camera

Integrated control box

Submittals: All submittals shall include sufficient information to demonstrate compliance with the equipment requirements specified herein. At a minimum, the submittal shall include the following information:

1. Manufacturer's specification sheets for all equipment demonstrating compliance with the specifications. If the proposal includes equipment equivalent to that specified, provide a side-by-side comparison of the equipment to demonstrate equivalence. If the proposal includes equipment that does not meet these specifications, include an explanation of how the proposed equipment meets the general intent of the specification.
2. Proposed delivery date.
3. Details on warranty for all equipment provided.
4. Fixed fee cost for all equipment.

Optional equipment, not included in this RFP, that the supplier believes would be of value to RVSS may be included in the proposal. Each option shall have a separate cost line item. Similarly, equipment that does not meet these specifications but would provide a similar function may be included as a separate item, with all associated costs or savings indicated.

Evaluation: RVSS will review all proposals and award a contract for the work based on the following criteria:

- | | |
|--|-----------|
| 1. Compliance with required specifications | 40 Points |
| 2. Quality of equipment and materials | 30 Points |
| 3. Customer Service | 30 Points |
| 4. Total Cost | 20 Points |
| 5. Warranty provisions | 10 Points |
| 6. Optional equipment | 5 Points |

Payment for the work will be made upon delivery of the completed vehicle to RVSS.

Additional information may be obtained from RVSS upon request.
